Yeslerday morning about two o'clock Patrolman Steve Crawford found Mr. R. B. Wonds a well known reporter of the Register tel and Huseman house, near Water street with his head bruised and out shockingly He was unconscious and apparently lifeless orawing his winside and once and once and consiste Lauchlin shortly privated. By the sline the injured man had partially revived. He was removed to the City Building, and intelligence of his condition telephoned to the Rigister office. Membersof the staff of that paper went to the building at once, and as soon as he had sufficiently recovered, had him removed to the office. There Dr. Huilthen attended to his injuries, which were extremely, painful. His head had been beaten with some hard weapon, and the right side was welled enormously, while hruises and contusions almost covered his face, head and body. He could give no instelligent account of the cause of his condition, but said he hed not seen his assallant, nor had he felt any blows but the first one. He was much improved yesterday, foremon, but sail had avery indistint impression of the sfiair. He said to had stopped in the Huseman house bar room, and was there taking with Prof. Bullivan, leader of the or

made.
From what several persons who were near at the time say, it appears that Mr. Woods left the bar room and started to go up the alley, when he was first struck with a brick, and stunned, and afterwards kicked. Who the assailant was cannot be told, and Mr. Woods does not seem to desire to have any steps taken to bring him to justice. Had he not been taken at a disadvantage, if would be a good man who could use him up so badily. His injuries are not serious, and he will be about again in a few days.

ROUTE TO PENNSYLVANIA. Rivat Roads Pushing Things-Th B & O.'s Interest.

During the past week satisfactory progres as been made by the different railroad com canies in completing their surveys and locatng their routes between Morgantown and

Fairmont. The bad weather and other adverse circumstances have not been allowed to delsy the work. The surveying corps have pushed onward in a very business like mauner. The Neet Verigina & Ponnsylvania company has completed the enryers between this point and Fairmont. It is understood that they have located their road on the weetside of the river from Fairmont down to a point about three miles above Morgantown, where they will build a bridge and come down on the east side. They report, also, that all, or nearly all questions of rights of way have been settled. They propose holding a meating of their stockholders in a few days, ratifying their contract with the Pennsylvania company, and then putting the construction of the road under contract at once. Work will be begun at this end of the line and they promise that we will have a read to Morgantown within the present year.

'On the other hand the Baltimore & Onlo Company have also completed their survey.

Company have also completed their surveys, located their road, and not to be behind, have, we understand, bad it admitted to record. Those on the inside allege that this company will be at work before many weeks and will close the gap between Fairmont and Uniontown so quickly that it will make our eves same. Representative of the R. & Co. Iron Valley & Morgantown road, up-Decker's creek, have not been idle. It is understood that the B. & O. company want their route also and will either help them build it or buy them out and build on their own account. Woodford, vice president and general manager of the Wheeling & Lake Erie, recently told a Betroit Free Free reporter that his read is now within fitty-two miles of Wheeling, the business of which place is handled over the Baltimore & Ohlo. Ten miles of thigsp is to be constructed in the spring, the contract having just been let. The remaining distance will be finished in time to meet the Fennsylvania Southern at Wheeling. The bridge at that point has to be finished the coming season, but the contract for the construction of the read does not call for its completion till 1889. Two miles of the Wheeling & Lake Erie's Belt Line at Toteldo has been graded and some of the track laid. It is not yet decided whether the bridge of the Pennsylvania company will be used to treach the "middle ground" or whether a new bridge will be buttit. All of which information is very gratifying to people at this end of the line.

BURGLARS AND HORSE THIEVES

From Wheeling, Folled in Their Plans

at Mt. Clairsville. Yesterday morning about 1 o'clock, Albert Froll, of the firm of F. Troll & Sons, was awakened by a noise at his front store roon oor, which is directly under the room is which he sleeps. He jumped out of bed cautiously raised the window, and discovering in the store, he discharged his revolver to diment without effect; and Albert sho hols took effect. The burglars evidently went towards Wheeling, for Mrs. Schumach and three horses and two saddles stolen fro

yesterday morning hitched in an alley i dridgeport. The parties that took them, n doubt, were the same that attempted t surgiarize Troll's store, for they had firs atched up a sleigh at Shumacker's, intenng to use it to carry away the stolen good out having been scared away, and meetir with such a warm reception, they took th three horses instead. There must have been three of them.

To-day the voiers of Wellsburg will be given an opportunity to create a bounded debt of \$15,009 to be applied towards paying off the present claims sgainest the town about \$5,000 and the balance \$10,000 to be devoted to improvements in the way of streets and water. The Council passed an ordinance creating the lean some time since, and today the people will vote on it. A three-fitths vote will be unecessary to carry the proposed loan. There seems to be considerable epoperation to the new ordinance and perhaps deservedly so, as the matter is an closked in its construction that the people are in doubt in regard to its real meaning.
